Professional Summary

Computer Science & Engineering graduate with hands-on experience in SQL, Python, and Advanced Excel. I clean and validate operational data, build business metrics, and create dashboards that support decision-making. Recent projects surfaced an untracked 63% funnel drop-off and a category-level fulfilment failure hidden behind healthy company-wide averages.

Technical Skills & Core Capabilities

- **Data Cleaning & Preparation:** Missing value handling, deduplication, text/date normalization, outlier detection (z-score), Exploratory Analysis | Python (Pandas, NumPy, Matplotlib, Seaborn), Power Query
- **Querying & Data Modeling:** Schema design, Joins, CTEs, Window functions, Indexing, Subqueries, Cross-tabs | SQL (PostgreSQL, MySQL)
- **Dashboards & Reporting:** Power BI (DAX, Data modeling, Drill-through, Slicers, KPI Cards, Report Publishing), Advanced Excel (Pivot tables, VLOOKUP, XLOOKUP, SUMIF/COUNTIF, Conditional Formatting, Slicers)
- **Business Metrics & KPI Design:** Conversion rate, Churn rate, Win rate, Funnel drop-off, Effort per conversion, Demand vs. Receiving Accuracy (DRA)
- **Soft Skills:** Data storytelling, Stakeholder communication, Critical thinking, Analytical problem solving, Attention to detail

Data Analytics Projects

Study Abroad Lead Funnel Analysis *Python (Pandas, NumPy), SQL (DuckDB), Hex*

- Analyzed **1,200 leads** over 19 months in SQL and Python (window functions, `QUALIFY`, cross-tabs)
- The biggest channel brought **30% of leads** and converted worst. Referral won **48%** vs **26%**, on a third of the follow-ups
- Found **63% of leads dropping off** after consultation — the largest leak in the funnel, and untracked
- Built a **6-tab interactive dashboard** for channel, branch, counselor, and market performance
- github : https://github.com/Nuzmolkhan/Study-Abroad-Lead-Funnel-Analysis

Demand & Inventory Planning *Microsoft Excel*

- Tracked **298K units of demand** against **283K received** across **9 categories**, 12 months
- Company-wide accuracy looked fine at **95.1%**. Split by category, **School Shoes sat below 30%**
- Recommended **per-category buffer stock** instead of one number for everything
- github : https://github.com/Nuzmolkhan/demand-inventory-planning

Education

Bachelor of Science in Computer Science & Engineering (CSE) 2021 – 2025
Green University of Bangladesh **CGPA: 3.39 / 4.00**
Relevant Coursework: Database Management Systems, Data Structures & Algorithms, Software Engineering, OOP (Java).

Achievements & Certifications

- **Vice Chancellor's Award** — Perfect Semester GPA (4.00/4.00), Green University of Bangladesh
- **50-Days SQL Challenge** — LeetCode
- **SQL(Intermediate) Accomplished** — HackerRank
- **Python Pandas Data Manipulation** — Kaggle
- **IELTS Academic** — Band 6.5
